Professional Summary

BCA graduate from KIIT University with hands-on experience building and deploying AI-powered full-stack web applications using Next.js, TypeScript, Node.js, PostgreSQL, Prisma, and generative AI APIs. Developed and deployed 3 production ready applications featuring authentication, cloud deployment, AI workflows, and responsive user experiences. Proficient in implementing secure authentication, Cloud& DevOps, and AI workflows to deliver scalable, production-ready SaaS solutions.Highly adaptable developer with a strong foundation in typed languages and OOP, eager to leverage AI expertise within enterprise frameworks.

Technical Skills

Languages: JavaScript, TypeScript, Python, SQL, C++, Java

Front-end: Next.js, React.js, HTML5, CSS3, Framer Motion, Responsive Design

Backend & Auth: Node.js, Express.js, REST APIs, Authentication

AI & Generative: Google Gemini API, Prompt Engineering, LLM Integration, Generative AI

Tools & Platforms: Git, GitHub, VS Code, Vercel, GitHub Pages

Databases: PostgreSQL, Supabase, Prisma, ORM, MySQL

Cloud & DevOps: Vercel, Render, Git, GitHub

Concepts: Object-Oriented Programming (OOP), SaaS Architecture, ATS Optimization, Database Design, API Integration, Authentication Systems

Work Experience

AI Web Developer Intern (Remote)

Apr 2026 – May 2026

InAmigos Foundation

- Revamped UI/UX processes through workflow assessments, enabling platform enhancements that supported 5,000+ registrations.
- Developed an AI-assisted website prototype aligned with organizational objectives, strengthening engagement pathways across a platform serving 5,000+ users.

Operations & Data Intern (IT & Compliance)

Dec 2025 – Feb 2026

Orange Securitas Private Limited

- Managed relational compliance datasets across HR and payroll functions, mitigating manual data inconsistencies by 25% while ensuring data integrity and optimal database accessibility.
- Executed SAP-based payroll and staffing operations, managing records for 70+ employees while collaborating with IT and Compliance teams to maintain enterprise data accuracy.

Projects

HireReady.AI-ATS Resume Analyzer & Job Matching Platform

[Live](#) — [Code](#)

- Architected a full-stack, AI-powered SaaS platform using Next.js, TypeScript, Express.js, PostgreSQL, Prisma and Supabase Auth to automate ATS resume evaluation.
- Implemented resume parsing, ATS optimization analysis, skill-gap detection, and AI-powered recommendations using Google Gemini API.
- Deployed production frontend on Vercel and backend services on Render with authentication and persistent user data.

AI-Based Personalized Fashion Report Generator (AttireSense)

[Live](#) — [Code](#)

- Engineered a full-stack fashion recommendation platform featuring conversational AI assistance, automated user preference workflows, and personalized style reports.
- Integrated generative AI APIs to generate user-specific fashion insights and recommendations.
- Deployed production-ready responsive web applications onto cloud platforms, delivering interactive UI/UX and seamless user experiences.

Bitcoin Market Trend Analysis

[Code](#)

- Analyzed historical Bitcoin market data using Python, Pandas, NumPy, and Matplotlib to identify price trends, volatility patterns, and key market indicators.
- Performed data cleaning, exploratory data analysis (EDA), and visualization, generating actionable insights through statistical analysis and interactive dashboards.

Certifications

- [Generative AI Fundamentals – IBM](#)
- [Prompt Engineering Basics – IBM](#)
- [Prompt Engineering – Vanderbilt University](#)

Education

Bachelor of Computer Applications (BCA)

2023 – 2026

KIIT University

7.5/10
